Superintendent's Report

To the School Board and Citizens of Brentwood:

It is my privilege, as Superintendent of Schools, to again present my report, the sixth annual. In this report I invite your consideration to the following topics: The Pupils' Progress, Our needs and the Future.

THE PUPILS' PROGRESS

In line with my last report I wish to continue the tabulation of test scores. The eighth grade was tested separately with the "Standard Graduation Examination" and grades four to seven inclusive used the "Otis Classification Tests." The results are grouped below.

8th Grade

Highest Score	Median Score	Median of Union No. 14
203	130	130
No. of Pupils	No. above Union Median	
9	4	

Grades 4 to 7

Grade	No. of Pupils	Median Score Union No. 14	No. above Union Median
4	12	49	4
5	11	73	3
6	7	93	4
7	11	108	6

On the whole the results obtained are satis-

factory. The standards this year were somewhat higher than last and about one half of your pupils were higher than the median. This is about the normal distribution. I believe the results indicate no slackening in educational progress.

NEEDS AND THE FUTURE

With past successes alive in the present, we are lead to believe that the future is not barren and dark. Many improvements in personnel, buildings, and equipment have taken place within my short period in your midst. More satisfactory teachers have been employed and an attempt made to retain them. The number of years of experience of the teaching staff should be about due to change to higher figures. We must try to retain those we wish to keep. In order to do so, we must adopt an inducement. If it is a few dollars in salary, that is the thing to do. If it is better equipment, then that is the inducement. But on such important matters, we must not take any niggard attitude. The buildings have been improved with paint. Better teaching equipment is being added from time to time. Almost a complete new set of books with recent copyright dates has been installed in your schools. So we might ask—what is the next step? It would appear to the writer that action ought to be taken to see that lights are placed in every school. I am quite certain that two other schools could be thus provided. There is not a modern sanitary toilet in any school. Some rather good installations of the old dry type have been provided. I believe that you should consider well the use of chemical units for all the schools. Sooner or later too the buildings must be protected by paint on the outside. Neglect

may result in greater expense when the job is undertaken.

I am deeply appreciative of the support of the School Board, the assistance of the teachers and the cooperation of parents and friends. The year has passed with a maximum of effort and a minimum of difficulties. "The everlastin' teamwork of every blooming soul" has been our watchword.

Very respectfully,

HAROLD C. BOWLEY.
